

Posifill VTwin Posifill VFour Liquid Filling Machine

universal

FILLING MACHINE COMPANY

- Fast, accurate filling by volume
- Ideal fill range 5ml – 1.30ltr
- Free flowing & viscous liquids
- 316 stainless steel contact parts
- Simple operation, cleaning & maintenance
- Tool free speed & volume adjustment
- ATEX certified for hazardous areas
- Pneumatically powered
- Upgradeable 2 to 4 heads or automate at a later date

fulfilling your needs

The Posifill VTwin/Four volumetric filling machine is built to last using the highest quality materials & components to meet the demanding requirements of modern industrial users.

Using FDA approved materials & finished to food & pharmaceutical quality the machines ability to fill a huge range of liquids extends its use in industries from food & pharmaceutical through to industrial chemical, oils, inks, paints & solvents.

Twin head system

General Machine Specifications:

- 316 stainless steel metal contact parts
- Range of cylinder sizes to fill from 5ml-1300ml
- Height adjustable bottle support and nozzle carrier to suit a wide range of container sizes
- Portable chassis with braked casters manufactured in stainless steel
- Easily accessible control panel mounted on the side of the machine
- Foot pedal start for hands free operation
- Simple hand-wheel volume adjustment & linear scale
- Vertically mounted filling pumps for small footprint
- Feed pipes suitable for drawing from a barrel at floor level
- Quick release air connection to pneumatic filter regulator unit
- Filling speeds up to 40 bottles per minute
- Accuracies of +/-0.25% can be achieved
- Height adjustable bottle support and nozzle carrier to suit a wide range of container sizes

Optional Equipment:

- 2 or 4 head variants
- Ball & Spring or Rotary Valve (B&S for free flowing liquids or RV for viscous or liquids containing particles)
